Art Unit: 1714

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 8-14 are rejected under 35 U.S.C. 102(b) as being anticipated by GB '502.

GB '502 discloses polymeric compositions comprising natural or nitrile rubber and mixtures of metal oxides including CrO₂, Cr₂O₃ and magnetite in amounts relative to the polymer such as claimed instantly. These compositions are taught as suitable as coatings etc.

Therefore the reference anticipates the rejected claims.

and 15

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 16-23 are allowed.
